Called to order at 7.35 P.M., Edward H. Thomas in the chair.

Records of last meeting read and declared correct.

TO THE VOTERS OF SWAMPSCOTT : —

Sewerage report.

At the last annual Town Meeting, the Committee on Sewerage was instructed to confer with the Lynn authorities relative to an arrangement for entering the Lynn intercepting sewer.

This committee has had several conferences with the Drainage Committee at Lynn, and has obtained a proposition which the said Drainage Committee is willing to favorably recommend to the Lynn City Council as follows: In consideration of forty-three thousand dollars (\$43,000) to be paid by the Town of Swampscott, permission will be given to enter the Lynn intercepting sewer with such size pipe as may be desired, such permission to be perpetual.

Furthermore, the Town of Swampscott is to be relieved of all care, responsibility and future expense as to the disposal of sewage, the City of Lynn to take perpetual care of it.

In many respects, this arrangement is preferable to the Dread Ledge Project No. 3, as suggested by Engineer Rudolf Hering, and your committee would recommend its favorable consideration.

This committee was also instructed to report on the cremation system, and to this end a portion of the committee visited Lowell to investigate the Engle Crematory, which has been there in successful operation since December, 1892. We found that the cremation system at Lowell is wholly for the consumption of house offal, and makes no provision for the disposal of night soil or sewerage

matter, and can in no respect be considered as a substitute for a sewerage system.

Respectfully submitted,

J. F. CROSSMAN, *Chairman.*

MOTION. That the Sewerage Committee be instructed by this meeting to make a contract with the City of Lynn to enter the intercepting sewer at Eastern avenue, providing arrangements can be made satisfactory to the Sewerage Committee, the amount not to exceed forty-three thousand dollars (\$43,000), the Selectmen to be instructed to hire the same amount for such time and terms as in their judgment may be advisable.

The above motion was declared not admissable at this meeting, there being nothing in the warrant relating thereto.

VOTED. To recommit the matter of Sewerage to the same committee for further investigation.

VOTED. To add Edward H. Kitfield and Kendall Pollard to the Sewerage Committee.

VOTED. To take from the table that part of Art. 5 consisting of the report of the Board of Health.

VOTED. To instruct the Board of Health to dispose of the contents of sink, cesspool or privy as provided for in Art. 7, Sec. 7 of the By-laws of the Town.

Instructions to  
Board of Health.

VOTED. To instruct the Board of Health to procure some place for the disposal of all matter of an offensive nature.

VOTED. At 9.40 P. M., to adjourn to Thursday evening, April 13, at 7.30.

### ADJOURNED ANNUAL MEETING, APRIL 13, 1893.

In agreement with the foregoing adjournment, the voters of the Town assembled at the Town Hall, on Thursday evening, April 13, 1893.

Called to order at 7.30 P. M. by Edward H. Thomas, Moderator.

Records of last meeting read and approved.

VOTED. That as a community assembled in Town meeting, we tender to D. K. & L. H. Phillips a hearty vote of thanks for their generous offer in the interest of our Public Schools, and further, that it is the sentiment of this meeting that the offer should be duly considered and laid over for action at a special meeting. (Unanimous.)

Vote of thanks  
to D. K. & L. H.  
Phillips for offer  
of land.

COMMUNICATION OF D. K. & L. H. PHILLIPS.

SWAMPSCOTT, April 12, 1893.

W. H. ROGERS, ESQ., *Chairman of School Committee.*

DEAR SIR:—The lot of land, which is located northerly and adjoining the estate of Jeannie P. Chase, if considered to be a desirable location, we will deed this property to the Town of Swampscott for school house purposes.

Communication  
of D. K. & L. H.  
Phillips.

From the plan made by Chas. W. Gay, Surveyor, under date of Apr. 12, 1892, a description of the land would be as follows: Beginning on the easterly line of a street leading upon the Highlands, in continuation of Greenwood court, and at the northwesterly corner of land of estate Jeannie P. Chase, thence running easterly by said land three hundred and sixty (360) feet, to a proposed street 50 feet wide; thence northerly and northeasterly by said proposed street, following an arc of a circle, having a radius of one hundred and thirteen feet, a distance of eighty-five and one-half

(85.50) feet; thence northeasterly by a radial line of said arc, about sixty-seven (67) feet to a point distant, easterly, three hundred and fifty (350) feet from the first named easterly street line; thence northerly and parallel with said street line about one hundred and sixty-two (162) feet to land of Swampscott Land Trust; thence westerly by said land three hundred and fifty one and nine-tenths (351.9) feet, to said easterly street line; thence southerly by said street line about two hundred and fifty (250) feet to the point of beginning.

There is a grand total of 96,327 square feet or 2.211 acres+.

Yours respectfully,

D. K. & L. H. PHILLIPS.

VOTED. That the alleged votes at the meeting of the inhabitants of Swampscott, held March 22d, 1893, recorded by the Town Clerk, to the effect "that the sum of three thousand (\$3,000) dollars be appropriated on loan or otherwise, to purchase and procure the lot known as the Breed Lot at the corner of Redington and Highland streets, for the erection of a school house that shall take the place of the present school house on Redington street, and that the sum of money appropriated to purchase the Breed Lot be raised by loan," be rescinded and declared to be null and void, and that the said sum of three (\$3,000) dollars be not appropriated and that no further action be taken under or in compliance with said votes, or either of them, and that it is the sense of the meeting that a Special Town Meeting be called in which there shall be an article in the warrant in sub-

Rescinding the  
votes taken to  
buy land for  
new School  
House.

stance like article thirty in the Warrant for the Annual Town Meeting, held March 20th, 1893, of which this is an adjournment. (Unanimous).

VOTED. To take from the table that part of the Selectmen's report that relates to Petition of Lynn & Boston R. R. Co. for action.

Electric system  
L. & B. R. R.

VOTED. That it is the sentiment of this meeting that the Selectmen allow the Lynn & Boston Railway Company to add electric system over Humphrey street, from Lynn line to Marblehead line, without widening Humphrey street, following the road-bed as now laid, also that the establishment of a five-cent fare by the Electric R. R. Co. between all points in the Town to and from Marblehead and Salem be a condition in any negotiations the Town may enter into with said Company in granting a franchise for electric service.

Town work to be  
done by citizens

VOTED. To accept and adopt the report of the committee appointed to consider Art. 31, the non-employment of foreign labor as follows: Your committee, after careful consideration, would recommend that all Town work, such as the constructing, filling, grading and repairing of Highways, building or repairing of Sidewalks and Catch Basins, setting Curbstones, paving Gutters, and laying Street Crossings, be done by the Superintendent of Streets and citizens of the Town acting under the direction of the Selectmen, and that all such work shall be divided equally and fairly among such citizens as may apply for it. In the matter of blasting of Ledges, building of Sewers and Culverts and laying of Water Mains, your committee would suggest the method of doing such work be left wholly to the direction of the Selectmen — A. R. Bunting, A. C. Widger, H. C. Bul-

finch, J. L. Taylor, J. Henry Widger, W. N. Randall, S. H. Shaw, P. H. Ryan.

VOTED. ART. 33. To appropriate the sum of <sup>Atlantic avenue sidewalk.</sup> eight hundred dollars (\$800) for the purpose of building a sidewalk on Atlantic avenue from the estate of S. C. Heald to the Marblehead line.

VOTED. Art. 34. That the Town define the <sup>To define the lines of Beach Bluff avenue.</sup> lines and grade that portion of Beach Bluff avenue lying between Atlantic avenue and the sea and construct a sidewalk on each side thereof.

The following resolution was adopted. Yes, 24, No, 19.

#### RESOLUTIONS SELECTMEN'S REPORT.

*Whereas*, The Preamble or Greeting in the <sup>Resolutions on Selectmen's Report.</sup> Selectmen's Report distinctly expresses a sentiment that Swampscott is a competing municipality with other towns for the purpose of enticing summer visitors within its border, and

*Whereas*, A failure to provide liberal means to accomplish this end, even to the election of accommodating public officials, would result in a certain forced isolation and an injury to our future progress.

*Be it Resolved*, That the Town repudiate this sentiment as antagonistic to the true principles of Town Government, inconsistent with our charter of incorporation, degrading to American citizenship, and having a tendency to undermine the fundamental principles of Liberty, Equality and Justice.

*Resolved*. That a copy of these resolutions be spread upon the records of the Town.

VOTED. To accept the Auditors' Report and adopt the recommendations contained therein.

Proposition to  
connect Swamp-  
scott and Lynn  
fire alarm.

VOTED. To leave the proposition of Engineer Downing as printed in Report of Fire Engineers with the Board of Selectmen and Engineers, they to act at their discretion in the matter.

1,000 feet of hose  
for Fire Dept.

VOTED. To appropriate six hundred and fifty dollars (\$650) to purchase one thousand feet of hose as recommended by the Engineers.

VOTED. To accept and adopt the report of the committee appointed to purchase horses for the fire apparatus, as printed.

VOTED. To accept all other reports as printed not previously acted upon.

VOTED. To extend to the Moderator a vote of thanks for the very able and impartial manner in which the affairs of this meeting have been conducted.

VOTED. To dissolve at 10 o'clock, P. M.

I hereby declare the foregoing to be a true record.

Attest:

TOWN WARRANT.

ESSEX ss.

*To either of the Constables of the Town of Swampscott in said  
County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are directed to notify the inhabitants of the Town of Swampscott, qualified to vote in elections and in Town affairs, to

meet at the Town Hall on Thursday, the twenty-seventh day of April, current, at 7.30 o'clock in the evening, then and there to act on the following Articles, viz :

ART. 1. To choose a Moderator to preside in said meeting.

ART. 2. To see what action the Town will take as to purchasing and procuring a lot for and the erection of a school house that shall take the place of the Redington Street building and appropriate money therefor, agreeable to the petition of W. H. Rogers and others.

ART. 3. To see what action the Town will take as to accepting the gift and conveyance from D. K. & L. H. Phillips to the Town for School purposes of a certain lot of land described as follows: Beginning on the easterly line of a street leading upon the Highlands in continuation of Greenwood court and at the northwesterly corner of land of estate of Jeannie P. Chase, thence running easterly by said land three hundred and sixty (360) feet to a proposed street 50 feet wide, thence northerly and northeasterly by said proposed street, following an arc of a circle having a radius of one hundred and thirteen (113) feet, a distance of eighty-five and one-half (85.5) feet, thence northwesterly by a radial line of said arc about sixty-seven (67) feet to a point distant easterly, three hundred and fifty (350) feet from the first named easterly street line, thence northerly and parallel with said street line about one hundred and sixty-two (162) feet to the land of Swampscott Land Trust, thence westerly by said land three hundred and fifty-one and nine-tenths (351.9) feet to said easterly street line, thence southerly, by said street line, about two hundred and fifty (250) feet to the point of beginning, in all 96,327 sq. ft. or 2.211+ A.

ART. 4. To see what action the Town will take as to the erection of a school house for the High and Grammar Schools, and as to appropriating money therefor, and raising the same by loan.

ART. 5. To see what action the Town will take as to entering the sewers of the City of Lynn, and appropriating and raising money to enable the Town to enter said sewers, and as to the Town making any contract or contracts with the City of Lynn relating to the connecting of the sewers of the Town with those in Lynn.

ART. 6. To see if the Town will extend the water main the remainder of the way on Salem street, and appropriate money, by loan or otherwise, for the same, as petitioned for by Willard F. Lewis and others.

And you are directed to serve this warrant by posting attested copies thereof at the Town Hall, Depot, Post Office, and three other public and conspicuous places in the Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands, this Nineteenth day of April, in the year one thousand eight hundred and ninety-three.

#### RETURN ON THE WARRANT.

Pursuant to the within Warrant to me directed I have notified the inhabitants of the Town of Swampscott, qualified as herein expressed, to meet at the time and place and for the purposes herein mentioned, by posting up attested copies of this Warrant in eleven public and conspicuous places in said Swampscott on Wednesday, April 19th, 1893.

JAMES WHEELER,  
*Constable of Swampscott.*

In accordance with the Warrant, the voters of the Town assembled at the Town Hall on Thursday evening, April 27th, 1893.

The meeting was called to order by the Town Clerk at the time appointed, who read the Warrant and the return thereon.

There were twenty ballots cast for Moderator.

Edward H. Thomas, sixteen (16), elected.

Eldridge F. Small, three (3).

E. B. Wardwell, one (1).

Edward H. Thomas was immediately qualified for the position of Moderator.

VOTED. ART. 2. That the alleged votes at the meeting of the inhabitants of Swampscott held March 22d, 1893, recorded by the Town Clerk, to the effect "That the sum of three thousand dollars (\$3,000) be appropriated on loan or otherwise, to purchase and procure the lot known as the Breed lot at the corner of Redington and Highland streets, for the erection of a school house that shall take the place of the present school house on Redington street," and "That the sum of money appropriated to purchase the Breed lot be raised by loan," be rescinded and declared to be null and void, and that said sum of three thousand dollars (\$3,000) be not appropriated, and that no further action be taken under or in compliance with said votes, or either of them, and that nothing more be done at this meeting under Article 2 in the warrant for this meeting, and that all that is done relating to securing a lot for and the erection of a school house, referred to in Article 2 of said warrant, be done under the next two articles of said warrant.

Rescinding of  
votes to buy  
land for new  
school house.

## PREAMBLE AND RESOLUTIONS.

Preamble and  
resolutions  
regarding land  
for new school  
house.

*Whereas*, Our Town, in whose progress and prosperity every good citizen cherishes a just pride, having reached a crisis in her educational affairs, where the exigency imperatively demands a new school building to take the place of the present school building on Redington street:

*And Whereas*, This consummation, so earnestly desired by a majority of our citizens of all classes, has been greatly retarded by embarrassments growing out of the inability of honest-hearted and public-spirited citizens to unite upon any suitable site after all the arguments *pro* and *con* of some ten sites have been presented and exhausted :

*And Whereas*, The condition of things just described has been perplexing and discouraging up to the point of hazarding the success of our much-needed improvement:

*Therefore*, We heartily congratulate ourselves that at such a juncture our embarrassment is so greatly relieved and our hitherto somewhat divided forces so generally unified by the most timely and generous offer of a lot of land, heretofore described, on the part of our well-known and life-time citizens, Messrs D. K. and L. H. Phillips :

*And Whereas*, We recognize that in the acceptance of this lot of land we shall possess a school house site—beautiful for situation, equal, if not superior, when all things are counted to any which its county affords, commanding, as it does, not only a view of our own town, but of city, sea and country beyond, in the most historic part of our beloved land ; and furthermore, we recognize the fitness of placing the public building, which repre-

sents the crowning interest of our community on the crowning summit of our territory a worthy landmark of our fair town to travellers far and wide by sea and land :

*Therefore, be it resolved,* By the citizens of Swampscott in Town Meeting assembled, that we express not only our appreciation of the timely generosity of D. K. & L. H. Phillips, but also our regard for the memory of their father, Eben H. Phillips, one of our earliest and most thrifty citizens, by declaring our acceptance of the offer of the land as described at a previous meeting and donated by the aforesaid gentlemen and our wish that the building erected thereon for the use of our public schools shall be called the Phillips School.

VOTED. Art. 3. That these resolutions be accepted and adopted and that the Selectmen be requested to accept the deed of the land donated by Messrs. D. K. & L. H. Phillips as described on Town Records of 1893, Page 503.

Resolutions and  
deed of land  
accepted.

VOTED. ART. 4. That the Town appropriate the sum of forty-five thousand dollars (\$45,000), the same to be raised by loan, for the purpose of erecting a school building on the D. K. and L. H. Phillips' lot described in the third article of the warrant for this meeting, to take the place of the Redington street School building, and that the Town Treasurer under the direction and authority and with the approval of the Selectmen shall borrow said sum of forty-five thousand dollars (\$45,000) hereby appropriated for the erection of said school building, and that the vote on this motion be a yea and nay vote, and that the check list be used in voting on this motion. "Yes," 100. "No," 9.

Appropriation  
for new school  
house.

Building Com.  
on new school  
house.

VOTED. ART. 4. That the Selectmen be a committee with D. K. Phillips, D. Holman Millett and Milton D. Porter, and the School Committee for selection of plans and construction of said School building.

VOTED. To lay the matter of Sewerage on the table until the next Annual Meeting.

Salem street  
water pipe.

VOTED. ART. 6. That the alleged votes at the meeting of the inhabitants of Swampscott held March 22d, 1893, and recorded by the Town Clerk, to the effect that the sum of three thousand dollars be raised by loan for the purpose of extending the water main the remainder of the way along Salem street, be rescinded and declared null and void, and that the prayer of the petitioners be *now* granted, and that the sum of three thousand dollars be appropriated and taken from the treasury to be used for the purpose of extending said water main.

VOTED. To dissolve at 9.40 P. M.

## REPORT OF THE SELECTMEN, 1893-1894.

---

TO THE CITIZENS OF SWAMPSCOTT:—

We herewith submit the annual report of the Selectmen for the year ending Feb. 28, 1894.

In accordance with the By-Laws, and after consulting with the different Boards, the following amounts are recommended for the several departments.

Selectmen's Department	.	.	.	.	.	\$4,300 00
Highway Department	.	.	.	.	.	5,500 00
Sidewalk Department	.	.	.	.	.	1,000 00
School Department	.	.	.	.	.	12,000 00
Health Department	.	.	.	.	.	1,500 00
Poor Department	.	.	.	.	.	2,500 00
Fire Department	.	.	.	.	.	4,000 00
Police Department	.	.	.	.	.	2,300 00
Concrete and Curbstone	.	.	.	.	.	500 00
Cemetery	.	.	.	.	.	800 00
Town Hall receipts, and	.	.	.	.	.	400 00
Library, dog tax receipts, and	.	.	.	.	.	400 00
Catch Basins and Paving Gutters	.	.	.	.	.	500 00
Monument Lot, care	.	.	.	.	.	25 00
Water Rates	.	.	.	.	.	600 00
Soldiers' and Sailors' Aid	.	.	.	.	.	200 00
Interest and Discount	.	.	.	.	.	4,000 00
County Tax (estimated)	.	.	.	.	.	5,500 00
State Tax (estimated)	.	.	.	.	.	5,500 00
Street Lighting	.	.	.	.	.	6,700 00
Memorial Day	.	.	.	.	.	100 00

**WATER PIPES.**—About 2,900 feet of 6 in. cast iron water pipe with two hydrants has been laid on Salem street, extending to the Salem line, which completes the piping of the public streets with the exception of a portion of Humphrey street, from Salem street to Humphrey square.

As the contract with the Marblehead Water Co. expires in three years, we recommend that some action be taken by the Town in reference to future water supply.

**STREET CROSSINGS.**—Granite street crossings have been placed as follows: Across New Ocean street, at Rock avenue; Pine, at New Ocean street; Humphrey, at Phillips street; Humphrey, at Pleasant street; Humphrey, at Phillips Beach station; Atlantic avenue, at Ocean avenue. Orient and Humphrey, at Hay Scales.

**ATLANTIC AVENUE SIDEWALK.**—A survey of that part of Atlantic avenue, from the Heald estate to Beach Bluff avenue, has been made, the original lines defined, and stone monuments set and a sidewalk has been constructed over that portion. It was ascertained by the survey that the avenue had not at that part been completed to the street line, and required a much larger amount of gravel than was estimated when making the appropriation for the work. Permission was very kindly given by Mr. David K. Phillips to take gravel from his land, free of cost, to complete the improvement.

**ESSEX STREET IMPROVEMENT.**—This street, which was widened by the building of the electric road, has been crowned and resurfaced. No ledge has been removed, as the condition of the road bed required the full amount of the appropriation. It is recommended that the projecting ledge near the estate of Mr. Plummer be removed.

**ONTARIO STREET.**—Ontario street, which was accepted and ordered to be built by the Town at its annual meeting,

has been constructed in a most thorough manner, the work being done by the street department. The old culvert has been replaced by one of ample size, two brick catch basins for collecting the surface water and connecting with the culvert have been built. It is recommended that the gutters be paved. A portion of the material used in building the street was taken from the New Ocean street lot.

IMPROVEMENT OF NEW OCEAN STREET LOT.—This lot, which was originally purchased for a gravel pit, and after the partial digging away of the gravel and undermining of the adjacent lands was allowed to remain in a neglected condition for many years, has been improved by removing the remaining gravel and constructing a retaining wall. One of the results of the improvement is ample storage space for Town property. On a portion of the room acquired a commodious shed has been erected, to be used by the Superintendent of Streets for the storage of tools and implements used in his department. Sand is also stored here for winter use. About 600 loads of good road material was taken from this lot and used upon the streets during the progress of the work.

CEMETERY.—A new and improved gateway has been constructed to the old portion of the cemetery; the grade at the entrance has been raised and, during the past winter, has been found to be a decided improvement.

Early in the season Mr. Joseph S. Brown, who has long been a faithful and efficient Superintendent, was obliged to resign, being unable to attend to the duties by reason of sickness in his family. As yet no suitable person has been found willing to permanently assume the office. Mr. Wm. Granger has been acting temporarily since the resignation of Mr. Brown.

It is recommended that water from the street main be conducted to the grounds, and faucets be located at convenient points; also, that the tool shed be removed to the rear and

an additional room be added to it for the convenience of lot owners. And that the space it now occupies, and surroundings, be utilized as burial lots. It is also recommended that the salary of the Superintendent be increased.

The attention of our citizens is again called to the fact that no desirable lots are to be obtained, and that some action towards enlargement or procuring other land be taken.

Number of interments . . . . .	37
Number in receiving tomb . . . . .	6
Lots sold . . . . .	1

**HIGHWAYS.**—The building of the electric railroad through our main street, the washouts occasioned by the August storm, and the heavy falls of snow have caused unusual demands on this department.

Owing to the growth of the town and increased heavy travel we cannot expect any reduction in the expenses of this department. The work on our streets has been well done, and under ordinary condition would wear for a considerable time without repair. The cost of maintaining our streets would be much less if gutters were paved, and it is suggested that means be provided for doing as much of this work as possible this season.

At the time of closing our report a petition from Amos O. Cahoon and others was received, for laying out a new street from Highland street to Greenwood avenue. It was placed on file and respectfully referred to our successors in office.

**PETITION OF THE L. & B. R. R.**—In accordance with a vote passed at the annual meeting, the Selectmen granted the petition of the L. & B. R. R. for electrical equipment through Humphrey street, adding such other requirements relating to street conditions as were deemed for the interest of the Town. The company was not able to immediately procure the material required, but after it was obtained, the

work was completed with such despatch as not to cause any serious inconvenience to public travel.

BURRILL STREET CROSSING.—As before reported, the separation of grades at the Burrill street crossing is an assured fact, and work will be begun as soon as the frost is sufficiently out of the ground, and rapidly pursued till completion. Meanwhile, we have arranged with the railroad company to provide a convenient crossing at Pine street.

For detailed reports of expenditures for the several departments, see Auditor's Report.

Respectfully submitted,

A. R. BUNTING,	}	<i>Selectmen of Swampscott.</i>

## REPORT OF THE SCHOOL COMMITTEE, 1893 = 1894.

---

### TO THE CITIZENS OF SWAMPSCOTT:

We come to you with a report of what has probably been the most eventful year in the history of the Swampscott Public Schools. The requirements for larger and more suitable accommodations, with such modern appointments and appliances as the situation demands, is in the way of speedy realization. The growth of the school idea and the growth of the town is soon to find its natural and inevitable culmination in a building which is to be named "PHILLIPS SCHOOL," situated on that commanding and beautiful summit known as Winnepurkit Hill.

The question of site which was so agitating our community at the time of our rendering our last report — a question on which there was a wide difference of opinion on the part of good and earnest citizens — has found a happy and amicable settlement in the hearty acceptance of a generous gift of land by Messrs. D. K. and L. H. Phillips, situated as above indicated and accurately described in the Town Records. There will be a general recognition of the fitness of perpetuating the name of an honored and thrifty old-time family of our community by giving it prominent and beautiful identity with the supreme interest in our civil affairs. On the evening of April 27, 1893 when the citizens of Swampscott, in town meeting assembled, voted with substantial unanimity to appropriate the sum of \$45,000 for the erection of the "Phillips School," a building committee was elected, whose report of the work, so far as it has progressed,

is herewith subjoined. For this happy consummation, your School Board claim little credit. We are by no means responsible for the growth of the Town, or of the school idea. We have simply presented the facts which we were in a position to know, and have called for the conveniences which those facts have made necessary. The Town has done the rest with commendable promptitude and liberality. We are not unmindful that other men might have accomplished the same end with greater wisdom and, therefore, with greater unanimity and promptness.

The move for new accommodations was made none too soon. To say nothing of the pupils who are coming to us by immigration, the Town Clerk's report shows 92 births during the current year. And it is an interesting coincidence that our records show, that just that number have entered our schools this year as first year pupils.

PROGRESS COMPULSORY.—Our progress has been forced upon us from without, more than it has been developed from within, or perhaps the truer statement would be that it has been developed from within by the pressure of environment. Our close proximity to a great educational centre like Boston, and our practical identity with the lesser city of Lynn, to say nothing of other lively educational towns near at hand, makes progress the inevitable alternative of a fatal retrogression. We must be what we are or be nothing, and suffer our children to look to other towns for their education.

COMPETITION.—We are so situated that we must compete with other towns which can pay larger sums for no better facilities and instruction than our pupils demand, and it happens too frequently that our instructors are called to larger and more remunerative fields which may be less exacting than here. Few people need to be told that a teacher's duties, if rightly performed, are arduous, and they are by no means confined to the five (5) regular school hours. Moreover, the

skill employed is of greater value than the time engaged. Thus far we have been fairly successful in overcoming a manifest embarrassment. This has been done by giving our teachers such ample facilities and such hearty and sustained sympathy and support as reconciles them to smaller salaries than might be obtained elsewhere. Our aim is that pleasant surroundings and companionships, a spirit of enthusiasm and appreciation shall establish a certain *esprit de corps* and dear relationship, like that of love of home and loyalty to country, that will hold our teachers in spite of the limitations above mentioned.

VACANCIES.—We greatly regret the departure of Miss Gertrude L. Drake, assistant in the High School, and Miss M. A. Wells, of the Redington street Primary, both of whom rendered such service as to leave indelible impressions for good on the minds and hearts of their pupils. We are glad to record, however, that their places are quite satisfactorily filled by Miss A. Lillian Rideout in the High School, and by Miss Florence A. Oliver in the Primary Department. The resignation of Miss A. M. Mott, of A Grammar, is even the more to be regretted, in view of a term of service which has been as remarkable for efficiency as for length. Miss Ellen M. Dewing, recently of the Brockton schools, has just begun work in Miss Mott's place, and comes with a prestige which inspires confidence.

TRAINING AND ASSISTANT TEACHERS.—Early in the fall, Miss Edith S. Gardner and Miss May E. Jackson, both of the class of '93," began gratuitous and creditable service as training teachers in our Primary schools on Essex street and Pine street, respectively. Miss Jackson's failing health has compelled a temporary retirement. Training teachers, here and elsewhere, consider that the experience desired, and the chances for promotion secured, are good compensation for service rendered until fitness for more responsible positions

is demonstrated. On January 15, Miss Gardner began her work with nominal wages, as assistant teacher for Miss Washburn at the Beach Intermediate, the increased enrollment of that school making such assistance necessary. On the same date, Miss Emily P. Ellis, also of the class of "93," began similarly necessary service for Miss Gould at the Pine street Intermediate. The efficient work of these young teachers gives excellent promise of their future usefulness.

HOME TALENT EMPLOYED.—The fact that of the five (5) new instructors employed during the current year, three are residents of our own town, illustrates the policy of the committee to encourage home talent as far as possible. We wish here to acknowledge the good service of Miss Comey, another of our residents, as a substitute teacher.

METHODS, GOVERNMENT AND DISCIPLINE.—The selection of text books, methods of instruction, government and discipline are left largely with the teachers, under the general direction, counsel, support and sympathy of the committee to whom the teachers show all due deference and submission. The principle of self government on the part of the pupils receives all possible encouragement from the teachers, whose aim is to govern by treating their pupils as self respecting men and women. The appeal is always directed in the first place to the higher motives, and every effort is made to foster the consciousness of true dignity in the scholar's nature.

MORALS.—The morals of the pupils are carefully guarded by both committee and teachers, and great vigilance is exercised in the maintenance of the statutes concerning the use of tobacco, and the defacement of buildings and furniture and fences. In this work we beg the hearty co-operation of parents and patrons.

DRAWING AND INDUSTRIAL WORK.—The exhibition in drawing and industrial work given at the Town Hall last

June, proved unexpectedly profitable, popular and enjoyable. It consisted of color work, free hand drawing, including the first steps in charcoal, and working drawings. The industrial work was only such as the child could do without special instruction from a teacher, but some of the needle work, as well as the painting, would have done credit to much older persons. Our citizens gave every evidence of cherishing a just pride in the work that is being done in this department, and of a lively appreciation of the arduous effort by which it is accomplished. Visitors from other towns were heard to express surprise at our progress, and the success of this new feature of our educational work is cause for profound satisfaction. The committee and community are grateful for what the teachers have done along this line, under the lead of Mr. Balch and Miss Bill, to give our schools a name in the regions beyond.

BETTER GRADING.—The efficiency of our schools has been promoted the past year by a better system of grading in the Primary Departments, giving only two different classes to teachers who have hitherto had three. Another school, which is necessitated not only by the desire for yet better grading, but for the rapid increase of pupils, is in contemplation for the coming year. The changes in grading have necessitated longer walks for the children in some cases, and we are grateful that parents and pupils have so generally acquiesced in the new arrangements, sacrificing individual preferences and comforts to the general good. In all cases, known to us, the pupils have finally come to be satisfied with the new assignment of places. When pupils become interested, and when they have formed an attachment to their teachers, then willingness to walk long distances has been surprising, instances of which could be given if necessary. The pedestrian tendencies and capabilities of children are often greatly underestimated, especially when the heart is engaged.

REGULARITY OF ATTENDANCE.—The somewhat monotonous appeal to parents to cooperate with the teachers in the effort to secure regularity of attendance seems to be an urgent necessity from year to year. The primary schools are the particular sufferers along this line. We are glad to note an improvement. The State record of 1892 brings the gratifying intelligence that our Swampscott schools stood first among the schools of Essex county in the matter of attendance. The B Grammar grade made a perfect record, so far as tardiness is concerned, in the spring term and the pupils maintained the same in the fall term of 1893, when they passed up to A Grammar.

ECONOMY OF ADMINISTRATION.—There are but five of the 35 towns in Essex county which pay a smaller per cent of the total valuation of their taxable property for school purposes than Swampscott, and there are only 25 towns in the entire Commonwealth which pay a smaller per cent. The average annual cost of the education of each scholar in our schools is gradually decreasing. While each year the committee have provided increased facilities, it has been done without increasing our appropriation for several years. The starting of the new school for the accommodation of new scholars is likely to necessitate a larger appropriation than heretofore, for the coming year. It is only by an inconvenient makeshift that we have been able to postpone the starting of the new school until fall. It is also a matter for congratulation that we are able to meet the unexpected demand for new teachers, while still keeping well inside the limits of our appropriation.

VACANCY IN THE SCHOOL BOARD.—The vacancy on the School Board, occasioned by the decision on the part of Mr. Benjamin Potter who was elected for the place, was filled by the appointment of E. F. Small.

ALUMNI ASSOCIATION.—The class of “93” held a very pleasant reception at the Town Hall on the evening after their graduation, at which time a High School Alumni Association was formed, with the following named persons as officers: President, S. Everett Doane; Vice President, M. Isabelle Hutt; Secretary, Miss Edith S. Gardner; Treasurer, Louis Marble. It is hoped that the outcome of such an association will be not only to promote a deeper interest and cherish a truer pride in all educational matters, and especially in our public schools, but also to keep alive the happy associations and pleasant memories that cluster about the dear old school days.

MORTUARY.—In the death of Mr. Melzard, the janitor of the schools on Pine and Essex streets, our schools lose a most willing and efficient helper. We sincerely mourn our loss, and the committee would not be satisfied to close this report without paying our heartfelt tribute to one so well worthy of our respect — so genial, so gentlemanly, so kind and affable and faithful in all the relations of life.

REPORT OF TRUANT OFFICER,  
1893 = 1894.

---

TO THE SCHOOL COMMITTEE OF SWAMPSCOTT:

I have to congratulate the Town upon the fact that there have been no cases of truancy during the year. I have made but 16 calls for all of which good and sufficient reasons were given as the cause of absence from school.

Respectfully submitted,

NEW PHILLIPS SCHOOL BUILDING.

## Report of Committee on New School Building, 1893-1894.

TO THE CITIZENS OF SWAMPSCOTT:—

Your committee appointed at the last Annual Town Meeting to procure plans and construct a High School building for the Town on the lot donated and accepted for that purpose, agreeable to the appropriation then made, herewith submit the report of their doings to this date.

After having received the title and plans of the lot, and establishing the boundaries, we proceeded to clear the lot and make survey for the location of the building. Your committee, having visited other localities where buildings similar to our requirements had been recently erected, gained much valuable information relative to the matter in hand, and, finally, having decided upon the style and character of a building which, in their judgment would be best adapted to the present and prospective needs of the Town, selected from the various plans submitted, those of Messrs. Wheeler & Northend of Lynn, and closed a contract with that firm, on terms which your committee considered very favorable, for plans, specifications, detail drawings, and general superintendence of construction of an eight-room building, as per elevation on exhibition at the office of the Town Clerk.

As it was plainly evident that blasting could not be safely done during construction of the building, it was decided to first remove the obstructions and grade the lot. We, therefore, contracted with F. D. Mayo & Co. of Lynn, they being the lowest bidders for removing the ledge and reducing the lot to grade, which was done to the entire satisfaction of the committee.

Meantime, having advertised for bids for construction of the building, your committee were about to close a contract for the work when, at this juncture, it becoming apparent

from the general financial situation that the Town Treasurer could not place the loan at such rates as was deemed for the best interest of the Town, your committee at once considered it wise to defer letting the contract, and only complete such work on foundation as would enable the committee (in connection with the work already done) to complete the entire building in season for occupancy on the opening of the fall term of 1894.

Later, considering it advisable in order to be able to start the building in the early spring, the committee contracted with H. Scott Tuttle, he being the lowest bidder, to do the excavating and lay the granite foundations for the structure, which has been completed in a satisfactory manner.

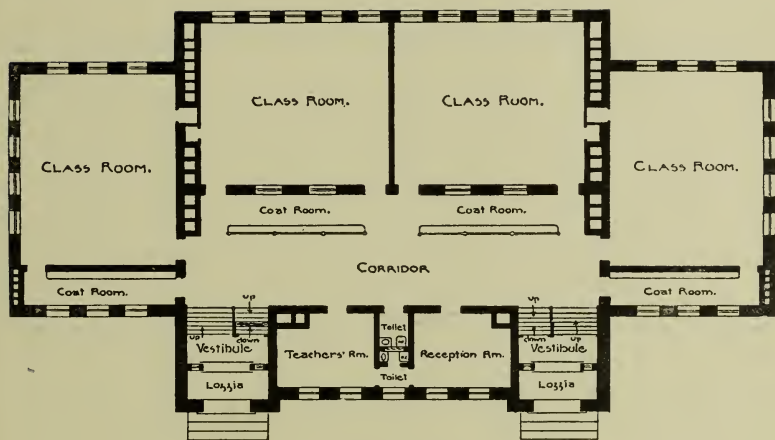

By the delay in letting the contract, the Town has been enabled recently to place with the Commonwealth the loan voted, and at a very low and satisfactory rate, thereby materially reducing the cost in interest.

We have, recently, again submitted the plans for estimates of cost of the entire work and, in view of the present situation, your committee are confident that the interest of the Town will not have suffered by the delay incurred.

The committee expect to be able to present for the information of our citizens, at the ensuing annual meeting, the entire probable cost of the work. For the detail amount already expended, reference is made to Auditor's report elsewhere.

## REPORT OF THE LIBRARY TRUSTEES, 1893 = 1894.

---

### TO THE CITIZENS OF SWAMPSCOTT:

In submitting our annual report we are pleased to note an increase in our circulation of about 1,000 volumes over the previous year, the total number taken out being 14,794. During the year we have added 175 new books, and our collection has now reached 6,024 volumes.

The Library has been open for delivery of books, as usual, Wednesdays from 4 to 8 P. M. and Saturdays, 2 to 9 P. M., except three weeks in December, when our annual stock taking occurs; we intend, however, to abolish the yearly calling in of the books and adopt a new method for examination, so that the Library may be open throughout the year without intermission.

In June last we issued a supplement to our catalogue, a neat pamphlet of 51 pages. We have on hand a number of copies of both catalogue and supplement on sale at the Library at the low price of 25 cents for the two, which is not half the cost. Readers who have not availed themselves of the catalogues will find them invaluable for home selection, which can be more satisfactorily done there than in the sometimes crowded library room. We propose to print and issue, occasionally, a bulletin of latest acquisitions, in the same style as the regular catalogue, which will be sold at one cent each.

We close with the oft-repeated request to our patrons, to

furnish the Librarian with a list of any books desired and, if our funds permit and the works are proper, we will cheerfully add the same to our Library.

#### AGREEMENT WITH THE CITY OF LYNN.

Connections with the Lynn system have been made by placing a tapper in the Lewis street house and a Lynn box in our house. Swampscott steamer and hose wagon answer two Lynn boxes on first alarm and two on second and all general alarms, the hose wagon returning immediately after laying the necessary amount of hose. In case of an alarm in town, word would be immediately sent for the return of the steamer, in return for which, the Lewis street chemical answers on first fire alarm boxes 4, 5, 6, 15, 17 and 21. In case more help is required, the Lynn box is pulled, to which respond a steamer and hose wagon, and more upon request. In our opinion, this arrangement will be productive of good to the Town as well as the City of Lynn. In case of a call to Lynn, we shall try and reserve two thirds of the company in Town, about one third being required to work the hose. At all times when the steamer is at Lynn on general alarms, the chemical is retained at the Lewis street Engine House to answer all Swampscott alarms.

The horses are in first-class condition, and have been trained so as to compare favorably with those of larger places. They have been worked on the highway (see high-

way department), and what they have earned and what they have saved on alarms, the Town has not lost much for their keeping, as in previous years each alarm cost \$12.50 for horses from the Lynn & Boston Railroad Co.

During the past year the Town has been very fortunate in regard to fires, more so than any town that we know of. Many of the surrounding towns have met with serious losses. Their fires were small when discovered but, owing to the absence of drilled companies, large losses resulted. We think the present company of the Town is in very good discipline, and we claim that we are ready at a moment's notice. We have saved what might have been serious losses and have done the Town credit by our work at Lynn.

HEADQUARTERS OF LYNN FIRE DEPARTMENT, }  
BROAD STREET ENGINE HOUSE, }  
LYNN, MASS., Feb. 1, 1894.

DEAR CHIEF :

The Board of Engineers of the Lynn Fire Department take this method to return their sincere thanks to you and the members of the Swampscott Fire Department for your prompt response to our call for help, and also for the efficient manner in which you discharged the arduous duties which devolved on you. We assure you that we will hold ourselves in readiness to return the great favor if you should need our services.

Fraternally yours,

CHAS. H. DOWNING, *Chief.*

W. H. HONORS, *Clerk.*

We would recommend that five more men be added to the company. The men at present are assigned as follows: Steamer, 5; ladder truck, 5, which is a very small number to handle ladders; hose, 5, leaving one man to look out for the lines of hose. In case a third line of hose is required at a fire,

we have not members enough to handle it. We trust this recommendation will be adopted, as the cost of five men is not much to be considered in case of need.

Respectfully submitted,

## REPORT OF BOARD OF HEALTH, 1893-1894.

---

TO THE CITIZENS OF SWAMPSCOTT:—

The Board of Health respectfully submit the following report of their doings for the past year:

During the past year we have received and investigated all complaints brought to our notice, and have had official notice of eleven (11) cases of scarlet fever and five (5) cases of diphtheria, two (2) of which proved fatal.

The collecting of offal has given general satisfaction, but still we hope to improve on it.

The beaches were cleaned up thoroughly the first of the season, afterward some person or persons saw fit to dump rubbish thereon, which put us to some extra expense to clean it up again, when they might have carried it to the dump.

We had considerable complaint from Hotel Preston by parties residing at Beach Bluff. We investigated, and through the courtesy of the proprietor was shown through the premises, and found everything pertaining to the sanitary condition in first class order.

We had a petition from Frank Griffin of Mountain Park in relation to a pond of water which overflows his cellar, and claimed that by draining this pond some twenty-three (23) other property holders would be benefitted. We called a hearing Jan. 24 at the lower Town Hall, and summoned the parties claimed to be interested. Out of the twenty-three (23) summoned, thirteen (13) appeared at the hearing, and eleven (11) of the thirteen (13) was opposed to being taxed

for the expenses which would incur by the draining of the pond. The board consulted with the Board of Selectmen who were at the hearing, and decided it would be inexpedient to establish such a precedent.

## Health Regulations of Town of Swampscott.

---

*The following Regulations have been adopted by the Board of Health:*

SECTION 1. The owner, agent or occupant, having care of any tenement used as a dwelling-house, shall furnish the same with sufficient drain, under ground, to carry off the waste water ; and also with a suitable privy, sufficient for the accommodation of all who may use it.

SECT. 2. All vaults or privies shall be so constructed that the inside of the same shall be at least two feet distant from the line of every adjoining lot or street, and same shall be kept tight ; nor shall the contents of any vault be allowed to accumulate within twelve inches of the even surface of the ground, or otherwise become offensive.

SECT. 3. All waste water shall be conveyed through sufficient drains, under ground, to a common sewer, or to such reservoir, sunk under ground, as shall be approved by the Board of Health, and no person shall suffer any waste or stagnant water to remain in any cellar, or upon any lot or vacant ground, by such person owned or occupied.

SECT. 4. Whenever, upon due examination, it shall appear to the Board of Health that the number of persons occupying any tenement or building in the town is so great as to be the cause of nuisance or sickness, or the source of filth ; or that any tenement or building is not furnished with vaults constructed according to the provisions of the regulations, or with sufficient privies, or drains under ground for waste water, or from any cause has become unfit for habitation, they will thereupon issue their notice in writing to such persons, or any of them,

requiring them to remove and quit such tenement or building within such time as they shall deem reasonable.

SECT. 5. No person shall throw or put into any public place, or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, dirt or rubbish whatsoever, nor shall any person throw into or upon any flats or tide water within the jurisdiction of the town, any dead animal, filth or offensive matter.

SECT. 6. No person shall erect or maintain, within the limits of the town, any building or structure used for a slaughter house, or for the manufacture and refining of kerosene oil or soap, the trying out of lard, the business of tallow chandler, or the tanning, dressing or coloring of leather or skins, or any other noxious or offensive trade, or exercise or carry on such trade, business or employment, without a license from the Board of Health, defining a place for the same, and any such license may at any time be revoked.

SECT. 7. No person shall collect any house offal or night soil within the limits of the town without a license from the Board of Health.

SECT. 8. No person shall bring into the town for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

SECT. 9. No person shall burn, boil or decompose in the town any bones or other refuse parts of meat, cattle or other animal, without a license from the Board of Health.

SECT. 10. No person shall keep any swine within the limits of the town without a license from the Board of Health.

SECT. 11. Any person sick with the small-pox, scarlet fever, diphtheria, membranous croup, together with all persons in attendance upon him, will be subject to the control of the Board; and no person shall enter or leave a house wherein any person is or has been sick with the disease, or in any way come in contact with the inmates of such house, except by permission of the Board.

SECT. 12. All persons are warned not to approach a house or the surrounding premises whereupon is displayed either a health card, a red flag by day or a red light by night

SECT. 13. When a householder knows that a person within his family is taken sick of small pox, scarlet fever, measles, diphtheria, membranous croup, typhoid fever, or any other disease, dangerous to the public health, he shall immediately give notice thereof to the Board of Health.

SECT. 14. When a physician knows that any person whom he is called to visit is infected with small-pox, scarlet fever, measles, diphtheria,

membraneous croup, typhoid fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health.

SECT. 15. No child from any family or house infected with scarlet fever, measles, diphtheria, small-pox, or membraneous croup shall be permitted to attend school without a permit from the Board of Health.

SECT. 16. The bodies of all persons dying of small-pox, scarlet fever, diphtheria, membraneous croup, typhus or typhoid fever, must be immediately disinfected and placed in a tight coffin, which shall not be reopened. No certificate of death from either of the above-named diseases will be endorsed by the Board of Health until above regulations have been complied with. In above cases no public funeral will be allowed without permission from the Board of Health.

SECT. 17. Notice of domestic animals or cattle suffering with contagious disease, or suspected of suffering from contagious disease, shall immediately be given to the Board of Health by those having the charge of such animals or cattle.

## Report of Inspector of Provisions, Animals, etc. 1893 = 1894.

---

TO THE BOARD OF SELECTMEN :

I herewith present the second annual report as the Inspector of Cattle, Fish, Fruit and Vegetables, the position to which I was appointed by you under Chapter 195, Acts of 1892.

Whole number milch cows, 124. Other horn cattle, 9. Number of cows kept in other towns and milk brought to Swampscott by the owners, 53. Provision stores, 6. Fish markets, wholesale and retail, 3. Fish wagons, 3. Places of slaughter, 1.

Cows found diseased and reported to State Cattle Commissioner, 1. Swine inspected after slaughter, 26. This being the first year that the disease known as *tuberculosis* was supposed to exist among swine, the State Commission wishes all swine slaughtered for food to be thoroughly and carefully inspected before being offered for sale.

Number of street pedlars found offering for sale unwholesome fruit and provisions, 1: viz, one load of stale eggs.

GEORGE NEWHALL, *Inspector.*

## REPORT OF MILK INSPECTOR, 1893 = 1894.

### TO THE CITIZENS OF SWAMPSCOTT:

The number of licenses granted for sale of milk for the term of 1893-1894 was nineteen (19), for which nine dollars and fifty cents (\$9.50) was received and paid into the Town Treasury. No complaints in any form has been made as to quality or service, and it is fair to infer that the service of milk in our Town has been satisfactory to all.

## REPORT OF STREET LIGHT COMMITTEE.

---

TO THE CITIZENS OF SWAMPSCOTT :—

The street lighting system continues to give satisfaction, the service during the past year having been good. Few complaints have been made concerning it. Recognizing the fact that in order to have the service satisfactory to the public the liability of interruptions from accidents must be as little as possible, the lighting company have erected a commodious station near their gas works, which is furnished with the most improved appliances, duplicating machinery being at hand wherever possible, thereby reducing to a minimum the liability of accidental delays. The plan of extra lighting on dark and stormy nights, as instructed by a vote of the Town, your committee believe is in the line of progress, and a continuance of the plan is recommended.

About the first of December, 1893, your committee received a petition from Charles W. Sargent and others for an arc light at the junction of Walker and Sheridan roads; also, one at the junction of Grant and Walker roads. The one at the former location was granted but, owing to the ground being closed, action in regard the latter was deferred until spring. There has been an incandescent lamp located on the line dividing the school-house lot from the Wiley estate on Redington street. The total number of arc lamps now in use in our Town is 83, incandescent, 18.

Your committee recommend an appropriation of \$6,700 to continue the lighting system during the coming year. We would further recommend a more liberal policy in the trimming of shade trees, and look forward to the near future

when owners of shade trees will not only allow them to be properly trimmed but will act in the matter voluntarily. By so doing the lighting service will be improved and the liability of grounding circuits averted.

## AUDITORS' REMARKS, 1893-1894.

TO THE CITIZENS OF SWAMPSCOTT:

We herewith present for your consideration, the forty-second annual report of the receipts and expenditures of the several departments, with a statement of the financial condition of the Town, for the fiscal year ending February 28, 1894.

The accounts of the several departments have been carefully examined and found to be correct, and satisfactory vouchers on file for payments made.

We would recommend that the Secretary of Auditors be paid the same salary as Chairman.

The Auditors would respectfully call attention to Article II, Section 6 of the Town By-laws, and trust more attention will be given it in future.

One of the sad features of the past year was the death of Mr. Ivory Emmons, who, at the time of decease, was a member of the Board of Assessors and well known by the townspeople. His long connection with Town affairs brought him in contact with a great many of its citizens. He was a member of the School Committee for a number of years, and always showed deep interest in Town matters.

Respectfully submitted,

L. FRANK CAHOON,	} <i>Auditors.</i>
